

VLT® 2800 number One Million for Chinese textile industry

Yuejian Machinery Manufacture Co. Ltd. is the leading enterprise in the Zhejiang province of China with comprehensive exports to Vietnam, Syria, Pakistan, Nigeria, Kenya, and others.

The company employs more than 600 people and produces 900 sets of machines worth 50 million Euro per year.

Mr. Sun Xiaomao, the Chairman of the Board of Zhejiang Yuejian Machinery Manufacture was present at the Gråsten factory when Sven Ruder, President, Danfoss Motion Controls Division, handed over the one-millionth VLT® 2800 which was gilded to mark the occasion.

“It is not surprising that a Chinese company bought the one millionth VLT® 2800”, said Sven Ruder. “China has taken over the position as our biggest and fastest growing market for this product.”

Drive number 1,000,001 off the production line was silver-plated and presented to Mr. Zhu Xuejun, Sales Manager at Hangzhou Hongxin Intelligent Engineering Co., Ltd. - the distributor that services Zhejiang Yuejian Machinery Manufacture Co. Ltd.

Also at the event were members of the group that developed the VLT® 2800, people that support the sales, and the staff producing the VLT® 2800 today.

The event was celebrated with mini VLT® 2800 cakes as production continued. Approximately 5000 VLT® 2800 drives are produced every week.

Since 1998 Danfoss Drives has produced one million units of the frequency converter VLT® 2800, and the sales are still growing.

Drive number one million was delivered Thursday the 26th of April at 13.35. It was ordered by the Chinese manufacturer of draw-texturing machines, Yuejian Machinery Manufacture Co. Ltd.
